

# Ady Taveras Courleaoux

## Senior Software Developer

I am a proactive and dynamic person, accustomed to solving problems and unforeseen autonomously, without the need for permanent supervision. I have a great capacity for coordination, which allows me to successfully combine different tasks, responding both to the needs of the professionals of the company and to the demands of the clients.

## WORK EXPERIENCE

### ONE (National Statistical Office) Senior Software developer

04/2019 – Present

Santo Domingo

Tareas & Logros

- I have worked in the development of the application of the 2020 Census, with various modules that automate the manual process they carried out to carry it out in previous years.

Contact: Delfia Toribio – Human resources

### Solvex Dominicana Software Developer

04/2017 – 04/2019

Santo Domingo

Tareas & Logros

- I developed multiple applications for big companies (DGA, Maritima Dominicana), I also developed internal applications for government entities and I have corrected / developed new modules in certain existing applications.

Contact: Yaneury Castillo – Administrative Assistant

### Overlogy Software Developer

02/2016 – 03/2017

Santo Domingo

Tareas & Logros

- I developed an application that allowed to improve the control of the income of volumes dispensed from a gas station and developed new modules for the dispensers using ASP.NET & VueJS.

Contact: Reynaldo – Administrative Assistant
